

Luxurious Lighting

Get more from your space by adding strategically positioned lights to illuminate after dark. A gently lit garden makes an ideal setting and increases the usefulness of your space.

We are specialized in creating innovative lighting solutions through exclusive brands to match your interior and exterior needs applied to both Commercial and Residential projects. We also provide lighting concepts for architectural landscapes, pools, and water features.

Bring your vision to light

Introduction

TerraVerde brings the brilliance of nature to light. Effective landscape lighting demands trained professionals with a collection of solid design skills, technical knowledge, and impeccable taste. We see lighting as an art which must take into consideration the existing space, design, and landscape. Our design team and technicians provide consultation on all aspects of lighting design, to create the best solutions for the environment you are creating.

LED Lighting Solutions

Profoundly change the world with just one LED bulb. With just a few simple changes you can make your home and landscape more energy efficient. What are the advantages? More energy efficient, LED lighting uses 95% less energy than traditional lighting. Longer life, LED lights last from 50,000 to 100,000 hours compared to 1,500 hours for traditional light bulbs. Durable, LED bulbs have no fragile filaments that can break from shock, vibration, and impact because they are manufactured as one solid piece. You don't have to compromise to save energy, LED lighting provides the same light intensity for lower wattage and is available in a variety of colors.

Beauty by Design

Find beauty not in the object itself, but in the patterns of shadows, the light and the darkness, that one thing against another creates. We understand that there is no single lighting to suit every client, that is why we constantly strive to supply new options for lighting products in different styles to accommodate all tastes from classic to modern. We create the ambiance while using lighting concepts that work for you. Uplighters or Downlighters are a great choice to highlight individual features while drawing the eye away from less attractive items. We use subtle lighting tricks to create a profound effect, where the lighting is not the main focus but rather the landscape. Enhance the mood, facade lighting utilizes subtle lighting that works to outline the overall architecture. Outline the beauty of pools, and water features by using suitable lighting solutions in various models and colors.

Classic by Kichler

Premium Product

Bringing the brilliance of nature to light in collections inspired by today's most innovative decorating styles and trends. Set a mood, express a style, create the perfect outdoor room from a tranquil, private oasis to an exciting venue. Premium lighting is the finishing touch that brings outdoor rooms to life after dark, adding safety, comfort, and ambiance to any setting. Each collection includes lighting for a variety of applications to create a high style, coordinated look throughout the home's landscape. Select from accent, deck and path lights combined with special

effects such as lighted birdbaths and charming accessory lights to easily bring a decorator look to favorite outdoor spaces or define new ones. With an impressive array of lighting solutions, crafted of the highest quality materials with reliable, weather-resistant finishes, Kichler adds years of beauty and enjoyment to any area.
